

Testimonials

“I feel as if I can finally move on with my life .”

-- Mike Masse, Wisconsin National Guard, Operation Iraqi Freedom

“I have found an inner contentment and peace that I had not experienced before the course. I learned to be more accepting of myself and others. I learned the power the breath has, and how it is the key to surviving any and every situation life throws at you. I have repeated the course a few times and have encouraged everyone I know to consider it. Make the time, see for yourself, it will be worth every breath!”

-- Jennifer Kannel Ambord, WI Army National Guard, Operation Iraqi Freedom

“The course really puts you in touch with your breathing and how it affects your stress levels. You become calm and relaxed with less stress. It is an extremely useful tool for individuals who suffer emotional trauma.”

-- Shad Meshad, Vietnam Veteran, Founder & Director, National Veteran's Foundation

“This workshop has done more than I ever could have imagined. Not knowing there were any underlying issues made it hard to acknowledge or accept them. After doing the workshop and continuing my home practice, I have opened the door to my emotions. I am happy to say that I can feel happiness as well as sadness, and both are great. Just being able to feel has been an amazing experience for me, and has made me become connected with friends and family. I have been given a new life, and I feel empowered to share my new self with everyone. Thank you for giving me a life worth living.”

-- Travis Leanna, U.S. Marine Corps, Operation Iraqi Freedom

“The course was very beneficial for me uncovering things about myself that I never realized had been bothering me. It helped me be at peace with myself from issues, feelings and the things that I participated in at war...through that I have been able to come to peace with some of the things that I did and the way I felt about them, I wish I could have learned this breathing 40 years ago.”

-- Noel, Vietnam Combat Veteran

PROJECT WELCOME HOME TROOPS

The Power Breath Workshop For Veterans

The Power Breath Workshop trains veterans in effective techniques to release stress and restore peace of mind. The techniques learned on the workshop bring deep mental and physical relaxation, which can reduce symptoms of anxiety, anger, insomnia and depression. Once learned, these techniques can be practiced on a daily basis. The cornerstone of the program is a transformational breathing practice called Sudarshan Kriya Yoga (SKY).

Additional yoga-based stretching before and guided relaxation after the practice complement and enhance stress reduction and resiliency. Through interactive exercises and discussions, the workshop also teaches resilience skills which develop a sense of self-awareness, connectedness and community.

The training is conducted over 5-7 consecutive days with each session approximately 3-4 hours. Participants are required to attend all sessions. After the training, periodic group follow up sessions help to support individual practice. Past participants have found that this format has helped them manage the ongoing stress and emotions associated with past trauma and reintegrating into civilian life.

About Sudarshan Kriya Yoga (SKY)

Research shows that the SKY practice helps to relieve symptoms of PTSD (Descilio et al., 2009)* The University of Wisconsin-Madison has recently completed a study evaluating the program with veterans recently returned from Iraq and Afghanistan. In the process of publication, preliminary results suggest that the Power Breath workshop significantly reduces PTSD, anxiety, and sleep problems, and that the benefits persist over time. Bringing Peace of Mind To Veterans

About Us

Project Welcome Home Troops (PWHT) began offering the Power Breath Workshop in 2005 as a program of the International Association for Human Values (IAHV). IAHV offers programs to reduce stress so that human values can flourish in people and communities. Its trauma relief and community empowerment programs reach a wide range of populations.

PWHT trainers are experienced IAHV facilitators, who draw upon veterans' existing strengths and wisdom to support them in returning to their natural, healthy state. Knowledgeable about military culture, our trainers guide the workshop with an attitude of mutual learning and respect. The program is interactive and facilitated in an open and supportive environment.
